"Clarion of Destiny" is the eight volume fantasy tale of Leena, a heroine selected by destiny to combat the greatest challenge her world has ever known. In Volume 3, "Beyond the Horizon", Leena and her friends must make a journey that no one has ever returned from. If there is to be any hope of saving Allivan, they must try to cross the impassable desert. Separated from her companions, Leena finds herself alone, in a land populated by strange creatures, where there is no rule of law, and only the strongest survive.
