Chickens. They are adorable, hilarious and provide delicious eggs. Most importantly, you want to raise some. Yet you are worried that you won't be able to take care of them, or you don't know where to get started. My wife and I offer you an alternative view, based on our success in raising a happy, healthy flock, right in our own backyard. This is an experience meant to be approached with a sense of humour, and we bring that to you. Chickens scamper, frolic, play, and never take themselves too seriously. You shouldn't either.

We will give you the basic tools to succeed in raising your own flock, and most of all, remind you that it is supposed to be fun.
