PERILOUS IMPERSONATION — She had embarked on a dangerous course. She had taken her friend's name and gone to the island as a governess to Tristram Darcourt's young daughter.

— Sally Wainwright was really a reporter who wanted to learn about the Darcourts. They were rich and powerful and lived in isolated grandeur on Darcourt Island off the South Carolina coast. What was the secret they had hidden so long from the world? But while Sally was learning about the Darcourts, they were learning about her. And now Tristram Darcourt had found out who she really was and why she had come to his closely guarded island. Would he risk letting her leave?
