If you have ever thought about starting up your own gardening business then this book may help you decide to take the plunge. It gives the author's personal experience in gardening and what type of work is available and will assist you in considering the range of services to offer your clients. Being a self-employed gardener offers many advantages and whether you wish to work part-time or full-time there is usually a healthy market for gardening services either as part of a gardening round or for one-off jobs. The gardening calendar is covered month by month with some of the work that can be undertaken throughout the year. Advice is also given on what to charge for your services. This book will also offer useful information and tips and has an active table of contents with a links section.

It has been written with both the US and UK gardening sector in mind and is a valuable first read for anyone of any age considering a gardening career. The author has over 20 years horticultural experience in varied fields in different countries. Over 15400 words in length or about 65 kindle pages
