Out of the ashes of despair emerges an incredible story of love, life, and courage. It is a compilation of J. B.

Love's experiences, observations, and journey through love, life, and courage over the course of her life put into words that shaped her into the amazing, accomplished, charismatic and compassionate human being she is today. It contains poems and motivational and wisdom quotes for everyday life. The author, MuchLoveFromJLove @ForeverLove4All on Twitter, has been called "Truth of Life" and this book is evidence of that. If you've been in love, wished for love, lost love, struggled with love, needed to learn to love yourself, or experienced love in any form, this book is for you. If you've been a champion for right or had to get up the courage to overcome challenges or just simply lived life to its fullest on your terms, this book is for you. It was written to inspire you to love better, live better and simply be better. The love poems in this book inspired the author to write "How to Find, Enjoy and Keep Real Love (A Common Sense Guide to a Healthy Relationship)." Enjoy!
