Markus has lived a solitary life on the run.

As the son of a werewolf and a vampire it should come as no surprise- but the reason is not that simple. Hunted because of his half breed past, Markus lives amongst the humans and keeps his urges to the bare minimum. A solitary life but the life he must live. Moving from here to there avoided suspicion but that was soon to come to an end. It seemed like the "normal" that Markus had gotten used to vanished when he met her. Julia. She was unlike any girl he had met- vampire, werewolf, or human. Markus knew he had to talk to her. He only hoped he had listened to enough human conversation so he would not scare her off. This was an amazing feeling he did not want to lose. He was in love. Julia North was just your average college student until her mother allowed Chuck to move in with them. A lazy and abusive drunk, Chuck made Julia's life torture- and her mother's life hell. A chance encounter- well, she thought it was chance- introduced her to Markus. He was everything that she could have wanted.

He was handsome, smart, and there was a touch of mystery about him. She fell in love rather quickly, and rather deeply. The weird thing was everything seemed to be fine when she was with him. She did not worry much about classes and she did not worry about her mother- well, at least not as much.

The Rebirth (The Full Moon Legacy) is the first book which sets the tone for the Full Moon Legacy. Markus will forever be an outcast, but will Julia accept him for who he is? And will Chuck get out of the house and leave them to live in peace? These questions will be answered, but will lead to a life that neither of them ever expected to live. The Full Moon Legacy begins with The Rebirth! Romance, revenge, these books are anything but sugar and spice and everything nice
