The Pharaoh of Upper and Lower Egypt keeps a promise to his gods by naming his daughter, Princess Sherez, heiress to his throne, leaving his firstborn son of his first wife locked out of ruling Egypt. Intrigue abounds as interested parties conspire to allow an incestual marriage between Sherez and her brother in order to secure his right to succession as Pharaoh.

This is the first novel in a trilogy. El Faraón del Alto y Bajo Egipto cumple con una promesa a los dioses al nombrar como heredera a su hija, la Princesa Sherez, en perjuicio de su primogénito, el hijo de la primera esposa del Faraón. A partir de este punto, se desatan grandes intrigas entre varios personajes implicados en una conspiración para permitir el matrimonio incestual entre Sherez y su hermano para asegurar el trono para el príncipe. Esta novela es la primera de una trilogía.
