Living as Learning is a passionate and rewarding dialogue on the legacy of the great American philosopher and educator John Dewey (1859-1952). Focused on growth and the creation of value within the context of real life, Dewey's pragmatic philosophy shares much with humanistic Buddhism. These similarities, which arise throughout the book, add richness to a dialogue already overflowing with faith in our capacity to find common ground and expand human well-being in our rapidly globalizing world. For Dewey, individual and social potential alike are unlimited.
