The original I Ching, according to Barbara Walker, was goddess based. Unfortunately, men hijacked it. As a result, for centuries devotees of the I Ching have been using an intrinsically flawed divination system, Now, thanks to the work of one of the premier feminist authors, we have an I Ching that is again goddess based, and therefore more authentic. Included in this kit are 64 I Ching cards, featuring Barbara Walker's original and her book, The I Ching of the Goddess (originally published in 1990 by Harper San Francisco; net sales 19,000).
