Samuel Adamson—God of the Tobes—has neglected his progeny for too long. With no one to shepherd them, his technological offspring are easy prey for the tyrannical Moons of Jupiter corporations. The highly evolved beings must act as slave drivers and prostitutes under the leashes of their corporate masters—and propel the human work force toward its annihilation. But the despotism of the Moons is only part of Sam’s problem.

If he can’t find a way to unite the Tobes, Earth will face almost certain destruction. Sam doesn’t give up easily, and things are about to change.
